Prospects Brighten in Local Coal Situation.

According to reliable information secured by The Journal, there is every probability of fairly steady work at the local mines commencing about the first or second week in November and continuing for the winter months.

The slack period through which we have been passing of late, no doubt, mainly caused by the large grain crop making a heavy demand for rolling stock, thus forcing the railway company to use coal from their dump in place of "off wheels".

The Canadian Pacific Railway have been playing more than fair with the steam coal mines in Alberta since work opened up in April of this year, as they have been using Alberta coal on their railway as far East as Winnipeg, and come, we believe, even as far as Kenora, Ont.

This hopeful prospect of fairly steady work should dispel some of the gloom that has commenced to gather in Coleman and The Pass in general.

Miner Breaks Leg

Mr. S. Penny met with a serious accident while working in the International mine on Monday morning, when he had the misfortune to fall down a coal shaft, and as a result sustained a fractured leg; severe cuts about the head and other injuries. He was taken to the local hospital where his injuries received attention, and he is reported to be making progress towards recovery.

Ontario Led in Tourist Traffic From The United States

Tourists from the United States brought \$150,000,000 in revenue to Canada in 1925, according to estimates of Government officials. This sum is equal to a quarter of the value of the Dominion's wheat crop and approximates the value of the annual mining output of Ontario, Quebec and British Columbia combined.

More than 2,000,000 American automobiles, it is estimated, have crossed into Canada already this year. They carried approximately 9,000,000 tourists, or one tourist for every man, woman and child in the Dominion. Every province shared in the tourist business. Ontario received the larger traffic. Last year 1,976,988 cars from the United States entered Ontario, 163,873 of which stayed from two to thirty days, 1,645 from one to six months and the remainder shorter periods.

United Church Sunday School Establishes Record

The United Church Sunday School which has been steadily growing since the summer months, reached high water mark on Sunday afternoon. There was an attendance of 136 which establishes a record for the Sunday School.

The superintendent and staff held a short business meeting at the close of the Sunday school, and plans were made for a children's program on Thanksgiving Sunday. A committee has been appointed and a program of songs, recitations, etc. will be arranged.

All the organizations of the Sunday School are going strong. The club room is in use every night of the week.

Cut Out 1920 Standards

"If we could get away from the standards of volume and profit of 1920," said a manufacturer to a representative of The Canadian Dry-goodsman & Women's Wear, referring to the wholesale and retail trade, "we would not think this year's business so bad, but we find it hard to be content with normal years after the fat ones of war times."

The last sentence is enough to make the men who died in France during the "fat ones" turn over in their graves. And yet the manufacturers are crying for more protection.

'The Alberta Pantry' An Eye-opener For Easterners

Much newspaper space was accorded the Alberta Women's Institute exhibit at the Canadian National Exhibition in Toronto in all the eastern papers. Neatly arranged on pantry shelves were jars of fruit, both native and cultivated, of vegetables, pickles, jellies and meats, game, fish and mushrooms, all canned by Women's Institute members from all over the province, from the Grand Prairie country to the United States border and from Rocky Mountain House to Inlay. Not only were these canned by Alberta women but they were cooked by Alberta wood, coal or gas and put up in Alberta made jars. There were cases of macaroni from Lethbridge, sugar from Raymond, glass and pottery from Medicine Hat and Reddick; jams, tea and coffee, spices, vinegar, flour and cereals, soaps and cleansers from Edmonton and Calgary; butter and cheese from Wetaskiwin; even a house-dress and broom "Made in Alberta" were there, the latter being used to clean up the whole of Canada as the Women's Institute demonstration

LOCAL, PERSONAL AND GENERAL NEWS

The winners of the weekly whist drive given by the Rebekahs on Saturday last were: Miss Dorothy Burns, 1st; Miss Carr, 2nd; Mr. McKeen Hunter, 1st; Mr. John D'Andrea, 2nd. There was a good attendance and everyone had a delightful time.

Mr. G. G. Coote and Wm Irvine addressed the electors of Blairmore on Monday, Oct. 5th, yet not a line appeared in the issue of the Blairmore paper last week about the meeting. Is this another instance of the Blairmore paper's fairness in dealing with public questions?

In the current issue of The Journal appears an advertisement of the Provincial government advertising Alberta Saving Certificates. These certificates are backed by all the resources of the province and are a safe and sound investment.

The Parish Hall looks very nice with its new decorations. On Saturday last the St. Luke's Blairmore Cubes walked down in the storm and were entertained to a bean-feast. On Tuesday evening the Eagle Patrol of Scouts sat down to a bountiful repast. On Wednesday last Mr. Hague and Mrs. Kay were winners of the first round of the Whist Tournament. The Library has received a few new books and magazines from the Old Country.

Conservative committee rooms have been opened over the Palm Confectionery on Main street.

Charlie Graham, who has the contract to repair the roof of the Arena, commenced the job on Monday. The material being used is plastic gum and is guaranteed for five years.

Since the commencement of the world's baseball series, Mr. A. M. Morrison's office on Main street has been the centre of much interest to baseball fans between the hours of 12 noon and 2 p.m. Each day some thirty or forty fans are on hand to hear the game, play by play, as it comes over the radio.

The Alberta Division of the Canadian Red Cross is appealing for funds to carry on their noble work throughout the province on Oct. 31st, "Red Cross Day." Every body is asked to give something, and thus help the Alberta branch "carry on" for another year.

From all the other provinces borrowed it to sweep out their respective booths and pronounced it a very good broom.

So popular was the Alberta Pantry with its display of "Made in Alberta" products that the booth was photographed by the C. P. R., their intention being to use the picture for immigration purposes overseas.

Some 346 Albertans signed the visitors book during the fair, while capacity audiences listened to the daily lectures given by the director in charge.

The Canadian National Exhibition gave the space free, and the Canadian National Railways gave free transportation of the exhibit from Edmonton to Toronto, otherwise the expense of the exhibit and speaker in charge was paid by the Alberta Women's Institute. This was the only Alberta exhibit at the fair. After the exhibition the entire contents of the pantry were given to the homes for the Blind and to the Christa Street hospital for Crippled Soldiers.

Mrs. Herdman McLeod entertained a number of lady friends at a bridge party at her home at Cardondale on Friday evening of last week.

Contractor J. S. D'Appolonia is working two crews night and day on the tipple foundation in order to get it completed before freeze up.

On Monday afternoon, Mrs. James, President of the Diocesan Branch of the Women's Auxiliary of the Church of England in Canada, visited St. Alban's Parish Hall and gave an inspiring address on "Women's Work in the Church." As a result the local branch of the Women's Auxiliary has been re-organized with Mrs. Barrington as President and Mrs. Cornett as Secretary-Treasurer.

Miss Jean Boyce left Sunday for Regina, Sask., where she will visit with relatives for a few months.

Mrs. A. W. H. McLeod and Mrs. Wm. Fraser returned, last Friday night from a month's holiday spent at Kellogg, Idaho and other points in the Western States.

An entertaining moving picture, entitled "Social Hygiene for Women," accompanied by a short explanatory lecture, will be shown under the direction of the Provincial Dept. of Health in St. Alban's Parish Hall on Friday, Oct. 16th. In addition, an interesting topical film will be shown at 3 p.m. Admission free, and girls under 16 not admitted. In the evening at 8 p.m. for men and boys only.

Mrs. J. D. S. Baggart and children left last week for Staveley, Alta.

Senator W. A. Buchanan and Hon. C. R. Mitchell were visitors to Coleman on Tuesday. They spoke at a Liberal rally in the interests of T. C. Milnes, at Pincher in the evening.

This week hot dogs and coffee were served for refreshments at the popular prices of 16c. Next Wednesday Mock Duck or Faggots and Peas will be served "Old Country Style" with coffee for 16c. "Answers," "The Bible," "John Bull," Canadian and American magazines will be available in the reading room. A warm welcome awaits everyone. Community singing. Come and enjoy yourself at St. Alban's Parish Hall.

Mrs. Walton will demonstrate Carnation Milk at Oulibetta's sign on Monday, Tuesday and Wednesday of next week. The public are cordially invited to come and get a good cup of coffee, a piece of delicious cake and candy made with Carnation milk.

The local Tennis Club are holding a dance in the K. of P. hall on Wednesday evening, Oct. 28th.

Coleman Community night at St. Alban's Parish Hall every Wednesday at 7 p.m. Admission free. Whist Tournament, 10c entrance fee, with two prizes each week. For the finals in which the winners of each week will compete, P. Burns & Co. have donated a side of bacon and Mr. Oulibetta a case of Macdonald apples.

Say It With Flowers
When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 18, THE COLEMAN TRADING CO., LTD., agents for Franche Bros., Lethbridge, advt.

Hon. Charles Stewart and T. C. Milnes, Liberal Candidate for Macleod, Address Local Electors

Federal Issues Dealt With in an Able and Convincing Manner—Coal Question Receives Attention of Minister of Mines.

The public meeting held in the Grand Theatre last Friday afternoon in the interests of the Liberal candidate, Mr. T. C. Milnes, was well attended. Mr. A. M. Morrison acted as chairman and introduced the candidate in a short speech.

Mr. Milnes who was well received, in opening his address, said he did not profess to be a politician, but was a farmer and rancher. His decision to support the King government at this election was made by reason of the fact that the affairs of the country had been conducted in a businesslike way. Previous to the Liberal government assuming office the Conservatives had balanced their budget but once in ten years. The King government had reduced expenditures by \$114,000,000 in four years, and during this period had balanced their budget twice, besides reducing taxation. The Conservatives had increased the public debt of Canada by over \$100,000,000, while the Liberals had reduced the public debt by \$8,000,000, and it was on this showing that he considered the King government worthy of support.

He also stated that the National Railways had shown marked improvement under the management of Sir Henry Thornton, who was appointed as head of this railway by the Liberal administration. He pledged himself, if elected, to do everything possible to secure a larger market for coal.

The chairman in calling upon the Hon. Charles Stewart, said it was not necessary to introduce Mr. Stewart to the meeting, as he was well known to all the people of Alberta, where he had resided for many years and taken an active part in the affairs of government. Mr. Stewart said he noticed many improvements in Coleman and throughout The Pass since his last visit here, and while coal mining was not just now as rosy as it might be, it was well to remember that agriculture, in which he was engaged, was not much better. However, he was of the opinion that Canada was in a better position than her sister nations who had been engaged in the Great War, and expressed the belief that another year or two would see most of our troubles behind us.

The speaker did not believe in increased duty on coal would prove of any benefit to those engaged in mining, as it had been proved in the past that increased duties did not bring prosperity. He mentioned the high tariff period of 1887 to 1896, and stated that conditions then were much worse than at any other time in the history of the Dominion. More people had left Canada seeking employment during that time than at any other period in Canada's history.

The main issue in the election was the tariff. The tariff was a tax, and everyone in Canada had to help pay this tax just in the same manner as they have to pay municipal taxes. Increase the tariff and you increase taxes. The Liberal government had not only refused the tariff but had also reduced the income tax, and a married man now does not have to pay this tax unless he is receiving more than \$5,500 a year.

Mr. Stewart declared that increasing the tariff did not give more employment to the worker, and it was class legislation of the worst

kind. If it did benefit the 700,000 engaged in manufacturing the other 9,000,000 of our population would be forced to bear the burden of this special privilege, and he was opposed to special privilege in any form whatever.

The four basic industries in Canada were agriculture, mining, lumbering and fisheries, and the prosperity of the nation was based on these. The Liberal government had reduced the duties on the implements of production used in these industries, and he stated that Canada's splendid trade balance today was largely attributable to this policy. He said that the next reductions to come would be on automobiles and textiles. When the Liberal government in 1923 reduced the duty on agricultural implements, the Conservatives said these industries would have to close their doors, but these factories in the east were all working full time and many of them overtime in order to meet the demand for implements.

The opposition were claiming that the government had not practiced economy. He answered this by stating that during the ten years the Conservatives were in office they only balanced their budget one year, while the Liberal government had a surplus of \$35,000,000 third year in office and cut taxation by some \$34,000,000. In his own department he had cut out 25 % and still giving efficient service.

He dealt exhaustively with the coal question in the Dominion and pointed out that the United States had the lowest production costs according to investigations which his department had made during the past two years. His department had brought coal to Ontario from Nova Scotia some 160 miles further west than it had ever been brought before. He had also originated the trial coal shipments from Alberta to Ontario. The railways had paid it cost them \$9.00 a ton to freight it. He had made them a proposal that if they would haul train load lots and allow the government to make a careful check of transportation costs, the government would re-imburse the railways for any loss on these trial shipments. However, the railways would not agree to allow the government to check their transportation costs, but have moved 25,000 tons at a freight rate of \$7.00 per ton.

Mr. Stewart said that he has been endeavoring to get coal hauled by the railways at the same rate as they haul grain, and if this was done Alberta coal could secure the North western Ontario market and also re-capture the Winnipeg market, which he was at a loss to understand how we had ever lost. This north western portion of Ontario would take about 2,000,000 tons annually.

He pointed out that when the present government stopped the American coal from being mixed and thus evading the tariff, the Ontario manufacturers complained bitterly because it increased their cost of production, and these same people would never allow Neighien to increase tariff on coal.

The minister said it was the government's intention to construct coal bunkers in the Vancouver harbor, and was of the opinion that Alberta steam coal will eventually find a good market there as our

Increase Poultry Profits by Marketing Co-operatively

THE Western Wheat Producers, the United Growers and others, have made co-operative selling a marked success. They have stabilized prices, increased their profits by standardized grading and shipping, only consistent and applying efficient salesmanship and their marketing to the detriment of the grower. By these methods the poultry producers, too, can secure these benefits.

The outstanding proof of this is the Prince Edward Island, where for the last thirteen years, export and efficient salesmanship applied to co-operative marketing, has saved thousands of dollars annually for the producers.

Stable prices, permanent markets, and a stabilized trade.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, with Wolf, the Wolf Dog. It is an Adaptation of This Story

SYNOPSIS

Pierrot, the trapper, received word that McGargart, the factor, would arrive at Pierrot's cabin the next day to demand the hand of his daughter, Nepeese. Pierrot warned Nepeese, a devil, McGargart would not get McGargart's hand but killed his spirit. McGargart, finding him lying trussed up like an Indian papoose, cried, "You little devil! I ought to heat your brains out—and I believe I will!"

CHAPTER XII.—Continued.

The stick fell. It fell again and again, and when McGargart was done, Barre lay half stunned, his eyes partly closed by the blows, and his mouth bleeding.

"That's the way to take the devil out of a wild dog," snarled McGargart. "I guess you won't try the killing game again, eh, youngster?" A chuckle, a devil-bait, who you meant almost to the bone of this hand!"

He began washing the wound again. Barre's teeth had sunk deep, and there was a troubled look in the Factor's face. It was July—a bad month for hites. From his kit he got a small flask of whiskey and turned a bit of the raw liquor on the wound, cursing.

PAIN ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steadily all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—J. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 99 per cent. replied "Yes."

It means that 99 out of every 100 women are in better health because they have given this medicine a fair trial.

W. N. Q. 1688

AFTER ALL There's Nothing To Equal

Zam-Buk FOR THE SKIN!

CHAPTER XIII.

From the window, her face screened by the folds of the curtain which she had made for it, the Willow saw what happened outside. She was not smiling now. She was breathing quickly, and her body was tense. Bush McGargart paused not a dozen feet from the window and shook hands with Pierrot, her father. She heard McGargart's coarse voice, his belated greeting, and then she saw him unwrapping Pierrot what he carried under his arm.

There came to her a brushy, his fingers gleamed menacingly, and his eyes burned like living coals. "There is a devil in him," said McGargart. "He is wild-born of the wolf. You must be careful or he will take off a hand, ka-sak-ai!" It was the first time he had called for that lover's name in Cree—twentieth heart pounded. She bent her head for a moment over her clenched hands, and McGargart—looking down at her thought and fastened his hand earnestly on her hair. From the door Pierrot had heard the word, and now he saw the caress, and he raised a hand as if to shut out the sight of a scandal.

"Men Devil!" he breathed.

In the next instant he had given a sharp cry of wonder that mingled with a sudden yell of pain from McGargart. Like a flash Barre had darted across the floor and fastened his teeth in the Factor's leg. They had bitten deep before McGargart freed himself with a powerful kick. McGargart had snatched his revolver from its holster. The Willow was ahead of him. "With a little cry she darted to Barre and caught him in her arms. As she looked up at McGargart, his hand, bare throat was within a few inches of Barre's naked gages. Her eyes blazed.

"You heat him!" she cried. "He hates you—hates you!"

"Let him go!" called Pierrot in an agony of fear.

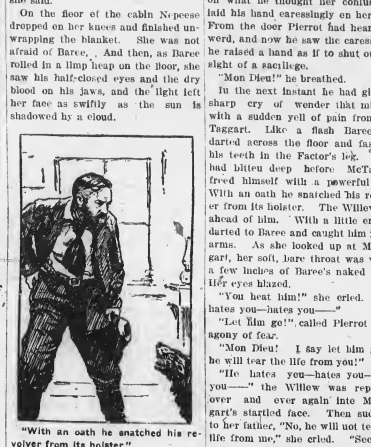

"Mon Dieu! I say let him go, or he will tear the life from you!"

"He hates you—hates you—hates you!" the Willow was repeating over and over again into McGargart's startled face. Then suddenly, to her father, "No, he will not tear the life from me!" she cried. "See! It is Barre!"

Did I not tell you that? It is Barre! It is not proof that he defended me."

"From me!" gasped McGargart, his face darkening.

He turned and laid a hand on McGargart's arm. He was smiling. (To be continued)

"With an oath he snatched his revolver from his holster."

"Barre!" she cried softly. "Barre!"

She partly lifted him in her two hands. Barre had sagged. His body was numbed until he was powerless to move. His legs were without feeling. He could scarcely see. But he heard her voice! It was the same voice that had come to him that day he had felt the sting of the bullet, the voice that had pleaded with him under the rock.

The voice of the Willow thrilled Barre. It seemed to stir the slumbering blood in his veins, and he opened his eyes and saw again the wonderful stars that twinkled in his soul so softly the day of Wakayook's death. One of the Willow's long braids fell over her shoulder, and he smiled again the sweet scent of her hair as he had carried her and his voice talked to him. Then she got up suddenly and left him, and he did not move while he waited for her. In a moment she was back with a basin of water and a cloth. Gently she washed the blood from his eyes and mouth. He scarcely breathed. But Nepeese saw the little quivers that shook through his body when her hand touched him, like electric shocks.

"He heat you with a club," she was saying, her dark eyes within a foot of Barre's. "He heat you! That man heat!"

There came an interruption. The door opened, and the man-beat stood looking down on them, a grin on his red face. Instantly Barre showed that he was alive. He sprang back from under the Willow's hand with a

A Great Manufacturing Centre

Over Thirteen Thousand Factories Located Near Philadelphia

In the metropolitan area of Philadelphia, within an hour's train ride of the city and doing more than any other city in the world, is a very large part of it in Philadelphia, well 3,200,000 persons. Within it are located 13,537 manufacturing establishments, giving employment to 544,300 wage earners, buying nearly two billion dollars worth of raw materials and turning out products valued at more than three billion, four hundred million dollars a year, with an annual wage roll of six hundred and sixty million dollars. Philadelphia alone claims over 9,000 of these factories, employs over 250,000 of the workers, who receive over \$326,000,000 a year in wages and produces nearly two billion dollars worth of manufacturing goods.

ITCHY PIMPLES ALL OVER FACE

Bothered Over A Year. Cuticura Healed.

"I was bothered with pimples for over a year. They were small and red and itched and were scattered all over my face. The pimples itched causing me to scratch and my face was disfigured. I tried other remedies but without success. I sent for a few sample of Cuticura Soap and Ointment and after using it I got relief. I purchased more and in about two months I was completely cured. (Signed) Miss Kathleen Menzies, Northumberland St., Whitby, N. S., January 2, 1922.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, and keep the skin clean. Cuticura Soap and Ointment are sold everywhere. Write for free literature to J. C. Cuticura, P.O. Box 1024, Station 1, Montreal, P. Q., Canada. Sample Soap and Ointment sent free on request.

Hoping Prince Will Revive British Trade

Manufacturers Believe Trip to South America Will Help Business

With the near return of the Prince of Wales to England, British manufacturers and business men are vying hopes that something good is coming to them from the Prince's ambassadorship to South America. They are looking to him for some such slogan as King George's "Waste no England" to galvanize drooping industry here.

Gedrety Chessman, secretary of manufacturers, representing 2,000 firms, referring to his expectation of a national appeal from the Prince, said: "Nothing but good could result from such a call which would be welcomed by the workers and equally by the employers."

Later as a whole has great respect for the Prince and should be made an appeal his words likely would have great effect with the working people.

It is significant that he turned his attention while in South America to the situation of the British markets, and I am sure he discovered during his industrial researches that we should protect their markets from unfair competition.

No Longer A Map

Getting First-Hand Knowledge To Teach To Pupils

It would be safe to say that there is no member of the party of British teachers who are visiting the United States at the present time who is not thoroughly impressed with Canada and the opportunities it offers to all who wish to be the best enterprise and vision. These educationists are going back to Britain with a new conception of this Dominion. Several of them confessed how much greater and more exhaustive the lessons will have to be when they visit this country on their return—Victoria Times.

A LITTLE BOOKLET MOTHERS SHOULD HAVE

It Tells What a Mother Ought to Know for Baby's Sake

Above all things every mother wishes that her child, or children, whatever their age, are bright, healthy, good natured, rosy boys and girls; clear eyed, clear skinned babies; good sleepers, bright wakers. Every mother's wish for her little folks is that they may be well.

It is natural for little folks to be well. No wise mother thinks that her child at any age is in a natural state of ill health. No mother can expect, though, that the child will escape all the ills to which babyhood and childhood are subject, but she can do much to make baby's battles for health easily won.

A valuable little booklet entitled "Care of the Baby in Health and Sickness" has been prepared, and as it is something every mother should have, a copy will be sent free to any mother on request who will mention Pharmacy by The Dr. Williams' Medicine Co., Brockville, Ont.

Has No Use For Pines
Illawarra, K.S., boasts of one immodest who keeps all the buttons securely locked on. She has been married 10 years and says she still has part of the first pair of pins she bought at the time of her marriage.

Gallantry Of British Captain

Left Course to Deliver Medicine to German Ship

A British liner left her course to meet a German ship to transfer to the former steamer a day's package of rare anti-toxin necessary to save a captain's life. The action of Captain Gemmel, of the Tuscunia, in turning back on this mission of humanity, Captain Wittenberg, of the Muenchen, called "one of the most gallant acts ever performed by a captain of a merchant vessel." And yet a few short years ago the two men, both naval reservists, and have been as eager to sink each other's ship, with all aboard, as they were this week to co-operate in aid of a single passenger stricken in mid-ocean. Loyalty to strange gods makes human beings strangely earnestly incomprehensible actions. There is one loyalty, that of gallantry in time of need, in which the British merchant seaman is seldom known to fail.—Baltimore Sun.

Life Of Canadian Parliaments

Shortest Was One Year and Four Days, Longest Was Six Years

Ottawa statisticians report the actual life of Canada's fourteenth parliament, which was dissolved on September 5, as three years, eight months and thirty days. The shortest parliament in point of time was the second after Confederation, which sat for one year and four days. The twelfth parliament established the record for longevity by carrying on its work for six years.

Four Canadian parliaments have sat through five sessions, two have held six sessions, and the twelfth parliament (war-time government) held seven sessions during its six years in office.

CLIPSE FASHIONS

Between Patterns

Ensemble Suit of Unusual Smartness

There is a getting away from the complacent, the comfort and harmony of the ensemble costume. The model pictured here is developed in fashion flared and printed silk of an unusual design. The straight-line frock features, the all-round circular skirt, the high collar and the long sleeves are provided in the pattern. The frock, No. 1052, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1053, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1054, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1055, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1056, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1057, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1058, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1059, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1060, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1061, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1062, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1063, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1064, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1065, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1066, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1067, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1068, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1069, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

The frock, No. 1070, is cut in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

What Pretty Girl Did for Sick Stomach

Miss E. Rich of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—to say nothing of headaches."

"I never thought of using Carter's Little Liver Pills, until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach feels back I answer with Carter's and have the last word."

Recommended and for sale by all drug stores, 25c.

Must Have Foundered After Italian City Was Submerged

Archaeologists explaining the drowned city, found by a diving fisherman off the east coast of Tunisia, have made a discovery of great interest.

Sir Denison Ross, director of the School of Oriental Studies, who was in Tunis last spring, told a London newspaper representative that the workers have found that a Greek galley, heavily laden with treasure, lies across one of the streets in the city.

As it is obvious that the galley must have foundered subsequent to the swamping of the city, the discovery will help to place the date when the Mediterranean submerged the busy street.

The dead city lies between the island of Jerba, known as the Isle of the Lotus Eaters, and the coast; and it stood once in all its splendor—while Rome and Carthage still contended for the Empire of the World, or earlier still—between what is now the island and the mainland, before a swift current swept city and isthmus away.

Too Busy To Spend Money

How President of Baldwin Locomotive Works, Philadelphia, Accumulated Wealth

Samuel Van Dusen, president of the Baldwin Locomotive Works, Philadelphia, accumulated money because he was too busy to spend what he earned.

"If you take too much time off to spend your earnings you cannot accumulate, and it is intended for one to accumulate," he told 700 pioneer workers in Duluth industries.

He early recognized that it was my business and my duty to do all the work which came to me to do in the best manner that I was able to do it and without any regard for the compensation which I received for it.

I saved money. I always saved money. And why? Because I never had time to spend what I earned, and it accumulated."

The ferryman, while plying over water which was only slightly agitated, was asked by a nervous lady in his boat whether any persons were ever lost to that river.

"Oh, no," said he, "we always find 'em again next day."

End of Boycott Sailed

The end of the Chinese boycott against British shipping was seen when ships began arriving at Amoy with cargo and took aboard hundreds of laborers for the Singapore rubber plantations.

The New Habit

It has come to be the habit with some persons that they think themselves hard up when they can't buy all the things they want but don't need.

It is useless for a man to seek a steady job if he isn't that way himself.

Shrunk In the Wash

The teacher was giving a nature lesson to her class. She explained that before they are sheared they are washed, brushed and combed. Then she showed the children pictures of a sheep, asking if any child could explain to her why the lamb's tail was so much longer than the sheep's.

There was silence, then—"The sheep's tail shrunk in the wash," said Joan, aged five.

There are more telephones in 10 American states than in all other countries combined.

Farmer Kills Five Lions

Man in Transvaal Believed To Have Broken All Records

Lion slaying records were all recently broken by a Transvaal Boer farmer. He was with his wagon and eight donkeys near a stream. Suddenly the donkeys stampeded, but it was not until dawn that he saw a large male lion feasting on one of his dead animals two hundred yards away. He fired and killed the beast. Immediately a female lion rushed at him. The farmer stopped his rush within ten yards by a shot through the head. Then he began to search for his missing donkeys, and discovered at different spots within half an hour, three other lions feasting on another donkey they had killed. He shot all three, and with his remaining donkeys pulling the wagon he arrived home with five lion skins.

THE JOURNAL

2ND AVE., E., COLEMAN, ALBERTA
E. F. GARE, Editor and Publisher

An independent paper published every Thursday. Subscription rates: \$2.00 per annum in advance; to U. S. and Great Britain \$2.50.

Legal, government and municipal advertising, 15c a line for first insertion and 10c a line for subsequent insertion. Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

THURSDAY, OCTOBER 15, 1925

ARE YOUR TAXES TOO LOW?

The statement given out by Mr. W. R. Campbell, vice-president of the Ford Motor Company of Canada, which appeared in the daily press on Saturday of last week, in which it was shown that his company made a profit of over six million dollars after paying all manufacturing costs, selling and general expenses, dividends, taxes and depreciation, proves conclusively what The Journal said last week about the tariff being Canada's heaviest burden.

This company—one of the thousands of our so-called 'infant' industries—according to their own figures, have taken nearly two millions of their six millions of profit out of the pockets of the people of Canada by way of the tariff. Yet some people say the tariff is not a tax! By increasing the tariff you increase the profits of the manufacturers and also increase the burden of taxation on the entire population of Canada. Do we want our taxes increased? If so, vote for a supporter of Arthur Meighen on Oct. 29th.

PERSISTENT ADVERTISING

Robinson Crusoe was an advertiser even if he was marooned on an island with nothing but black Friday and a billy goat. He wanted the passing world to know he was there and wanted to get off, so he advertised the fact. True he had nothing but a shirt, but he put it up on the highest place he could find, and waited a long time for results. Notice this Robinson did not pull his shirt down when he didn't get results in a day or two. He kept it there and waited and in course of time he got results. Who shall say that this advertising did not pay. How much more reason there ought to be for the man who has something to sell to learn this lesson. The newspaper reaches the buying public in any community and if he has anything the public wants the fact will be known.

The Saturday evening Post, one of the biggest papers, has just the same trouble that the small weeklies have as it charges \$7.00 for one line or \$4,500 for a page, but it covers its field just the same as the local paper and only gets results accordingly. The business that does not use paper advertising may exist, but proof is evident that sooner or later it will go by the board.

THE TARIFF AND INDUSTRY

The one and only issue in this election is the tariff.

There are numerous other side issues involved, but the tariff, that is, whether the manufacturers in the East should be allowed to tax the people of Canada a higher price for the goods they buy. Everybody knows that protection robs the consumer and enriches the manufacturer. The Blue Ruin talk is all propaganda inspired by the eastern manufacturer. Boiled down in a nutshell, the whole thing amounts to this: Do you want to make a few more millionaires in the East at the expense of the rest of Canada? If you do, support Mr. Meighen and his high protective tariff. If you favor the masses against the classes, support the policy advocated by Premier King.

T. C. Milnes, the Liberal candidate, and G. G. Coote, the Labor-Progressive candidate, are in favor of a low tariff, which means less taxes and LOWERING the cost of living; John Herron, the Conservative candidate, is in favor of a high tariff, which means more taxes and RAISING the cost of living. That's the issue you have to decide on Oct. 29th, so take your choice.

In a little over two weeks time, Canada will know whether she has been "saved" or "wrecked." After that it may be "business as usual," with the sun rising and setting at the customary hours.

High protection is a discredited doctrine. It has no place in the onward march of things.

Saving money generally is a success except between the first and tenth of the month.

Taking an interest in your community pays interest on the investment.

If at first you don't succeed—advertise again.

Here and There

It is understood a Scottish syndicate has purchased sixteen acres of land adjoining the best residential section of Vancouver, B.C., and will erect one hundred residences there.

Although only three years old the Oliver district of British Columbia has already become noted for its production of very fine cantaloupes. This year the production is expected to be about 25 to 30 carloads.

The 1,350,000-bushel Government Terminal grain elevator being built at Prince Rupert, B.C., will be completed by November 1st, when a test shipment of ten carloads of grain will be made through it.

Notification has been received by the Hon. John S. Martin, Minister of Agriculture for Ontario, that he is showing of white Wyandottes at the New York State Fair at Syracuse, and captured the trophy for the best display for the twentieth consecutive year.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$4 an acre, were increased to \$5. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a bonus of it, a settler may obtain a grant of \$150 from the Government as a reward for his work.

Considerable progress has been made during the past few years by R. M. Palmer, at Cowichan Bay, B.C., in the cultivation and propagation of new species of gladioli. In his garden, Mr. Palmer has at present growing about 150 different varieties, bulbs having been secured from all parts of the world, even Central Africa contributing its quota to this wonderful collection.

Having completed their tour of Canada as the guests of E. W. Beatty, chairman and president of the Canadian Pacific Railway, the ten British Journalists left Canada early in October for England, to relate there the story of their experiences and to give their readers the impressions they have gained of the Dominion.

During the month of August 1,132 vessels, comprising 131 trans-Atlantic, 35 coasting and 966 inland steamers, entered the port of Montreal, these having a total registered tonnage of 1,936,345, while in the same period 1,141 vessels went out, these representing 1,932,145 net registered tons. Since the opening of navigation 757 ocean-going vessels, representing 3,468,965 net tons, have entered the port, as compared with only 649, representing 2,280,972 net tons last year; these figures being up to the midnight of September 6th.

F. F. Nercross, a well-known Chicago lawyer, had an amazing experience recently while staying at the Banff Springs Hotel and playing on the golf course there. His approach to the ninth hole was disrupted by a huge bull elk which tossed its antlers and stood pawing the ground with evident hostility as the lawyer prepared to play his ball. Mr. Nercross was about to observe the better part of valor when the bull's attention was distracted by the appearance of a cow elk which made an effective substitute for the golfer and both animals disappeared into the neighboring bush.

Travelling in a five-passenger 1924 improved model Ford touring car from Halifax to Vancouver, J. L. S. Scrymgeour and E. P. Fitching are performing a feat unique in the annals of motor travel in this country. From Frans, near Sault Ste. Marie, they travelled on the tracks of the Algoma Railroad to Port William, having been granted the use of the lines by the Canadian Pacific Railway. The whole run of about 4,500 miles took nearly eight weeks, and a series of still and moving pictures were taken en route to commemorate the adventure.

Pop Up Your Lodge Meetings
100 Humorous STUNTS and Stars to Speeches, for Lodge, meetings, parties, etc. Book of 100 Live Ideas for Entertainment Committee. Tested and approved. Endorsed by leading organizations.

The Standard Book **Laughs, pop tricks, speeches, etc.**—everything that things your committee needs it, put on meetings, and entertain the whole crowd. Get it while it lasts! NOW keep it with the prices you save in your meetings and parties. Here something doing every minute. A dollar is small coin for a Whole Hundred of SHAPLY STUNTS and Stars for Speeches. You Don't Pay Unless Pleased. Send to money. Pay Postman \$1.00 on arrival of book and few pennies for collection charges.

Cut this out and mail with your order to The Illinois State Register, Dept. A. 34, Springfield, Ill. Mention this paper.

The Question Is

Have you paid your Subscription to The Coleman Journal for 1925? A prompt renewal will be appreciated. Thank you.

The most urgent requirement in Canada's Agricultural Products

CANADA produces every year large quantities of wheat, oats, barley, butter, cheese, bacon, beef, eggs, apples, potatoes, grass seed, and clover seed that she cannot consume. Her natural outlet for these products is, of course, Great Britain—the one great consuming country of the world with an open market.

Unfortunately, nearly every other country with any surplus of food products seems to want to send its surplus to this same market.

The keenness of the competition on this, our only market, and the energy and resourcefulness of our competitors began to impress themselves upon the Department of Agriculture some time ago, but it is only within very recent years that the real and only way to grapple with this problem has been discovered, or at least put into effect. This Department now believes, as do also most of the farmers of this country, that the "grading" of our agricultural products is the policy and practice that is seeing us through the struggle and will assure us of our rightful place on the British market.

"Grading" means the classifying of products, whether they be hogs, butter, cheese, eggs or anything else, into what might be called in a general way "BUTTER GOOD," "FAIR" and "POOR" classes.

These exact words are not used in describing the grades, but that is what is meant. The purpose served in grading is threefold—

(1) Educational. When the producer sees the relative quality of his product he is spurred on to maintain that quality if it is the "best" or to improve the quality where necessary.

(2) Fair Play. When products are not graded the inferior article, for various reasons often arising, such as the superior article, and the credit and advantage of putting the superior product on the market is lost to the one who really deserves it.

(3) Facilitating Trade. The dealer learns to have confidence in the article he is buying and buys more freely, because it is guaranteed by grading, and gradually everybody gets to know what the "best" article really looks like or tastes like. In short, grading brings about standardization and ensures to the producer the best price.

Canada now grades her cereals, grass seeds, hay, potatoes, apples, eggs, butter, cheese, wool and bacon hogs. The results have been in every case beneficial and in some cases quite markedly so, even though the grading system has been in effect some cases for only two or three years, thus—

Cheese—Grading began April 1st, 1923. Canadian cheese the year before had fallen to such disfavour on the British market that New Zealand cheese was just commonly preferred. Today Canadian cheese commands cents per pound higher than New Zealand.

Butter—Grading began same time as for cheese. The reputation of our butter was then indeed at low ebb. Canadian butter today, while not the best on the market, is rapidly improving in quality and gaining in reputation.

Hogs—Over two years ago the Department of Agriculture began to grade live hogs at the packing houses and stock yards. The 10¢ premium paid by the packers for "select" bacon hogs as against "thick smother" as classed by departmental graders has done wonders to improve the quality of our hogs and develop the bacon industry.

Best Canadian bacon, which ordinarily was quoted two years ago from 10 to

18 shillings a long hundredweight below Danish has gradually grown in the estimate of the British wholesale buyer until it is now quoted at only from 1 or less to at most 1 or 6 shillings per long hundredweight below the Danish.

This improvement in price is, of course, due to quality and has come about very gradually, the spread narrowing down by a shilling or two a month until now it is not at all a rare occurrence to see best Canadian selling on a par with the Danish article.

Eggs—Canada was the first country to grade and standardize eggs. These grades and standards apply not only to export, interprovincial and import shipments, but also to domestic trading.

The basis is interior quality, cleanliness and weight.

Standardizing Canadian eggs has established confidence between producer and consumer and between exporter and British importer, and has resulted in a greatly-increased demand for the Canadian egg both at home and abroad.

Other products might be mentioned where grading has worked to the great advantage of the producer and to the advancement of Canadian agriculture. Already Great Britain recognizes our store cattle, wheat, cheese, eggs, apples and oats as the best she can buy.

It is for us to improve our other products, particularly our butter and bacon, as to bring them also into this list of "the best on the British market" and consequently the highest priced.

Grading enabled us to do this for cheese, wheat, eggs and apples.

Grading is helping us to do it for butter and bacon.

Quality Counts

Quality is thus the first objective for the Canadian exporter, and, then steady, regular and prompt shipment. The Department of Agriculture is working by educational methods, and the result of this policy is seen in the growing volume of Canada's agricultural exports. Look at these figures—

Canada's Principal Exports of Farm Products

	1920-21	1924-25
Wheat (bus.)	129,215,137	101,361,587
Flour (bus.)	6,017,117	11,263,771
Butter (cwt.)	902,326	1,269,771
Best Cheese	1,211,111	1,269,771
Butter (bus.)	9,739,414	24,561,881
Cheese (cwt.)	2,566,250	1,269,771
Apples (bbls.)	1,266,499	1,269,771
Barley (bus.)	14,571,111	22,520,454
Rye (bus.)	2,662,263	1,269,771
Barley Shorts and Middlings	8,981,489	1,269,771
Oats (cwt.)	897,266	880,046
Clover (bush.)	179,256	417,997
Polanus (bush.)	280,111	1,269,771
Cream (gals.)	1,279,136	2,524,116
Flax Seed (bus.)	1,269,771	1,269,771

A Chain of Contacts

If you, as a merchant, could be constantly meeting new prospective customers, you could keep your business healthy and flourishing without advertising.

But the main reason why ADVERTISING is a sound, paying investment is because it does this missionary work for you, constantly, efficiently, at low cost, and leaves you free to render personal service and plan further business developments.

Look into the value to you of advertising in The Coleman Journal from a business-building point of view. Talk it over with us.

PROGRESSIVE MERCHANTS ADVERTISE

To the Electors Macleod Federal Riding

LADIES AND GENTLEMEN:—

I STAND FOR:

1. Stability of Public Policy.
2. Effective representation for all classes.
3. Freedom from entangling alliances.
4. A prosperous, advancing Western Canada.
5. Majority Rule.
6. The Conservative Party at its best.
7. Protection for Canadian Coal, with steady work for miners.

I have represented you before as faithfully as I could. I was always in my place in the House of Commons and was never left astray by groups or special interests. I did my best to look after the ordinary needs of my constituents, which I considered to be my first concern. My principles and experience will again be placed at your service if you elect me on October 29th.

Vote for me if you Conscientiously can.

Yours faithfully,
JOHN HERRON.

What St. Alban's Church is Doing For Coleman

On Sundays. Holy Communion every Sunday morning. Evening service every Sunday evening. Religious Instruction (Primary) under Mrs. Frank Graham; (Junior) under Mrs. Burrows; (Senior) under Mr. J. Rayson. League every Sunday afternoon.

On Mondays. Brownies (General training) for girls under Mesdames Kay, Graham and Bosworth.

On Tuesdays. Cub Pack. (Elementary Physical Training and First Aid) under the Priest-in-charge. Boy Scouts under Mr. Shaw. Late scoutmaster at Banff and Calgary.

On Wednesdays. 4.15 p. m. Instruction with pictures on the Life of Christ by the Priest-in-charge with play hour. 7. p. m. Community Night.

On every week day except Monday, from 10 a. m. to 1 p. m., the reading room is open free. A warm welcome awaits all. Circulating Library, two books for a fortnight at \$1.00 a year. Our aim, a "live" church in a "live" town.

BRITAIN WOULD ACT AS MEDIATOR AT CONFERENCE

Locarno.—A new incident believed to be of vital importance in its bearing on the success of the Locarno security conference came in the form of a long, private meeting between Foreign Minister Stresemann, of Germany, and the British foreign secretary, Austen Chamberlain, like Chancellor Luther and Foreign Minister Briand, of France, Dr. Stresemann and Mr. Chamberlain not only discussed the problem immediately before the conference, but the whole range of European questions on which mutual understanding and agreement are essential before political reconstruction can be achieved.

Mr. Chamberlain is anxious to serve as mediator between the opposing views of France and Germany on the problem of a French guarantee for Poland. The two statesmen went over this matter in an endeavor to find a formula.

Organizing Another Antarctic Expedition

Captain Wilkins Has Purchased Plane Used By Amundsen

London.—Captain George Wilkins, the explorer, who recently returned to London after thrilling adventures with his canoes in the Far North of Australia, is organizing another Antarctic expedition, which will probably set out in a few months' time. Captain Wilkins has had an adventurous career, including expeditions to the Arctic with Stefansson and to the Antarctic with Shackleton. He has purchased the aeroplane used by Amundsen on his Arctic flight. "It is more than likely that we shall use the machine in the Antarctic," he said recently. "The Norwegian whalers realize the importance of the work we have in hand, and will help to convey my machine and supplies to the Bay of Whales, whence I expect to start the flight at the end of 1926. We expect to make for Graham's Land and cover 1,500 miles of new coast line."

Saskatchewan Wheat Pool

Date Is Set For First Annual Meeting

Regina.—Saturday, November 21, is the date set for the first annual meeting of the Saskatchewan wheat pool delegates when the directors meet at the Regina headquarters. Each of the 16 pool districts in the province will send ten delegates to the annual meeting, which will be held in the City Hall, Regina.

Preparations are now being made for the election of the 1926 pool delegates. Nomination papers are in the mail for the secretaries of all pool locals. They are returnable not later than 6 p.m. Monday, November 22. The elections will close Monday, November 23.

Immediately nominations have closed, ballots will be sent out to the 60,000 shareholders of the pool. Any six contract signers in the pool can nominate a candidate for election as a delegate, and the local secretaries have been requested to call nomination meetings.

Freight Rate Equality

Adjustment Cannot Be Forestalled Much Longer, Say McGeer Vancouver.—"The day of freight rates equality in Canada, long past due, cannot be forestalled much longer," said G. G. McGeer, K.C., government freight rates counsel, on his return from Ottawa.

"It will be good news to Vancouver," said Mr. McGeer, "that the Alberta wheat crop will be approximately 130,000,000 bushels. It is not thought the snow has had any serious effect."

Prince Writes A Play Stockholm.—Prince William, King Gustaf's younger son, known as Sweden's royal poet-playwright, has completed a new play, which has been accepted for production by the Royal Dramatic Theatre. It is titled "On Board," and deals with life at sea, of which the prince has had considerable experience, having been trained for the navy.

Distress Signal Unintentional Seattle, Wash.—Distress signals received here from an unidentified vessel in the Pacific Ocean were sent unintentionally by some member of the crew of the lightship Unklila, while he was tinkering with the ship's apparatus in the absence of the skipper. It was reported by the Seattle Harbor Radio Station.

W. N. U. 1926

Prosperity In Britain

Daily Mail Discovers Two Centres Where Trade Is Particularly Good

London.—In these times when so much doleful news with regard to the state of British industry is appearing in the newspapers, it is refreshing to find that The Daily Mail has discovered at least two prosperous centres in the country, Coventry and Leicester. Coventry is described by The Mail as the busiest place in the United Kingdom. The motor car factories there are working at the highest pressure, and The Mail attributes this happy state of affairs largely to the re-imposition of the McKenna duties. In Leicester the woollen and hosiery trades are said to be showing such improvement that but for the Australian tariff the town would be one of the most prosperous in the whole country.

The factories are working overtime and the export trade is good. The shoe-making industry is also prosperous.

Baseball Idol Passes

Christy Mathewson Dies As Result Of War Injuries

Saranac Lake, N.Y. — Christy Mathewson is dead.

Baseball's "Big Six" lost its right arm last September just as the summer's great climax, the world series, in which he played an all-important part in 1915, had gotten underway in Pittsburgh.

More than five years ago, the great pitcher, loved and honored wherever the game is played, began what was to be a losing struggle.

Gassed in the World War in France, Mathewson returned from overseas to coach with the Giants, the club with whom he won his fame, but the illness which was finally to take his life, forced him to retire for recuperation in 1920.

Urges Commercial Air Development

Air Force Adding Canadian Industry Says Governor

Ottawa.—The Royal Canadian Air Force and its development along the lines of civil aviation, was the theme of an address before the Canadian branch of the Engineering Institute of Canada by Commander Capt. J. Stanley Scott, M.C., A.F.C., D.C. He said it was the particular function of the force to develop the air power of Canada by the spread of commercial aviation and the cultivation of a sound ultimate air power.

Among the industries that have been considerably helped by the Air Force in Canada is the salmon fishing industry on the Pacific coast, he said. The airman patrol for the suppression of illegal fishing and see that no improper or unlawful practices are employed. The officers flying in this service are all sworn in as fishery inspectors. Wireless communication is maintained from the aircraft to the stations.

Arguing Over Treaty

French Official Circles Pessimistic Over Demands of Germany

Paris.—Members of the German delegation attempting to draw up a new commercial treaty between France and Germany handed Charles Chaumet, French minister of commerce, a note containing German proposals, framed with a view to finding a new basis for the resumption of negotiations. French official circles maintain a pessimistic view of the German demands for most favored nation treatment without offering what the French consider adequate reciprocity.

Quell Syrian Uprising

Beirut, Syria.—A Syrian cavalry squadron has put down what is described as a local uprising at Hamah, striking or wounding 30 of the demonstrators. The crowd, which included many Bedouins, menaced the public buildings, disarmed the local police and are reported to have set fire to the palace before the army arrived.

West Canada Livestock Union

Saskatoon.—The 13th annual convention of the Western Canada Livestock Union is to be held, for the first time, in Saskatoon in January. S. W. Jones, of the Saskatoon exhibition announced. The convention was placed here, he said, because of the great gains made in the livestock industry in this district in recent years.

Arrests Ensure Peace

Peking.—A mandate has been issued ordering the arrest of several politicians in the province of Chi-Li, who are alleged to have been urging General Wu Pei Fu to return to Honan and renew the civil war. It is believed here that the arrests are likely to ensure peace for several months.

A Move For Peace

Gods of War Receive Rebuffs At Inter-Parliamentary Meeting

Washington.—The gods of war are receiving telling rebuffs. The inter-parliamentary leaders here approved unanimously called on the United States once more to summon the world to the peace table.

The demilitarizing "plan" was offered to the Interparliamentary Union by the British, with notable unanimity among the 41 nations gathered. The union not only subscribed to the plan for universal peace, but heard delegates of Japan and Great Britain urge the United States to take the initiative. First of the nations to call for cessation of strife was Japan, France, Great Britain and Germany quickly approved.

Great Britain, through R. S. Hudson, declared his willingness to "join with any great powers in any conference for the further limitation of naval armaments or for the reduction of land armaments."

GERMANY WANTS TO INSURE PEACE FOR THE FUTURE

Locarno, Switzerland.—Not only peace now, but peace for all time is Germany's desire. The German chancellor, Dr. Luther, so informed M. Briand, the French foreign minister, in a private consultation of the two statesmen, which stands out conspicuously as the biggest single event since the opening of the security conference.

The two leaders strolled quietly away from Locarno and, meeting at a secluded spot on the shore of Lake Maggiore, had a frank talk on European problems as a whole, and especially how best to consolidate the peace of Europe.

This meeting of conciliation, marked by an expression of the determination of both statesmen to do everything humanly possible to banish the Franco-German war spectre, has injected a new ray of optimism into the political atmosphere, despite the fact that it did not result in the fashioning of a formula whereby France can guarantee, in a special way, the territorial integrity of Poland and Czechoslovakia, her allies.

That problem will require a consultation of the cabinets at Bern and Berlin, for France and Germany will find it difficult yielding from their original positions without the support of their home governments and some parliaments.

Saskatchewan Dairy Pool

Intensive Campaign For Members To Be Launched At Once

Regina, Sask.—Canvassers working on a commission basis will launch a sign-up campaign for contracts in connection with the Saskatchewan Dairy Pool Limited, which has opened headquarters in this city.

The territory to be covered includes a radius of about fifty miles north and south of Regina between the Capital City and Moose Jaw, and east to the Manitoba boundary. The pool will not operate according to the contract until 75 per cent. of the dairy products shipped to the Regina market have been signed up. November 1 is the closing date, but the directors have power to extend the time limit another 60 days.

Trainmen Stick To Posts

Wilkesbarre, Pa.—Probably fairly scalded when steam flooded their locomotives, Gas Gelsler, engineer, and Robert Mathews, fireman, stuck to their posts until they had brought their train to a stop and saved their passengers' lives.

Heavy Sentence For Letter Theft

Montreal.—For stealing 12 letters, containing in all not more than 20 cents, Uric Germain's local mail box opener, was sentenced to three years in the penitentiary.

CRITICIZES OUR CONTRIBUTION TO IMPERIAL NAVY

London.—Truth, the weekly paper which occasionally comments upon the paucity of Canada's contribution to the British navy, again returns to the subject of the Canadian naval contribution.

Truth suggests that the people of Canada might find something to think about in Premier Coates' reply to a deputation from the New Zealand Navy League, which waited upon him recently and urged the government to contribute a third battle cruiser in the British navy.

Premier Coates reminded the deputation that New Zealand's per capita contribution from imperial naval defence had increased this year from eight to ten shillings, according to a Wellington dispatch to a London daily. That, personally, he thought a steady development like this was better than precipitate action such as the Navy League urged.

Truth states that New Zealand's contribution to the imperial navy next year would be nine shillings per head. It quotes the New Zealand as saying: "It is our job to do all that we can to keep the renewal of cruisers up to date."

The seaborne trade of Canada, Truth says, is very much greater than that of New Zealand, and Canada's western shores look out on the Pacific. Two lent destroyers are not much of a contribution to the navy of the empire, the paper adds.

How To Save

Interesting Booklet on Yearly Purchase Plan An Aid to Small Investors

An interesting and valuable little booklet is published by Barnett Stansie, C.M., C.E., Investment bankers of Montreal, setting out an excellent plan whereby the public of Canada may buy good securities and pay for them over a period of one year. The object is to cultivate the habit of saving money among people who have never been accustomed to buying securities, and to show them how profitable it will be for them to invest their savings in this way and save the payments over a year.

Good securities can be bought on this plan, with all the opportunities of making advantage of market variations, and yet the investor has an entire year in which to pay off the balance due on his account. Under this plan the investor pays 25 per cent. of the purchase price on delivery of the order, and the balance, including the customary interest, in eleven equal monthly instalments. The booklet outlining this plan can be obtained upon application to the company at its Montreal office, Canada Cement Building, Phillips Square.

Probing Tangle In Europe

Committee of Interparliamentary Union Will Investigate Economic Barriers

Washington.—The Interparliamentary Union conference, in final session here, adopted a resolution calling for an investigation of economic barriers between European nations, with a view to their ultimate extinction.

The resolution, which was adopted without objection, was introduced by H. J. Procope, of Finland, as a substitute for one presented by Adolf Braun, of Germany, recommending the creation of if Europeans understanding between European nations.

Closed Half-Bur Season

Vancouver.—At the closing session here of the international half-bur season it was decided in again enforce the closed season on halibut for the next two years, the dates being from November 15 to February 15.

Rumors Are Denied

Saskatchewan Co-operative Elevator Co. Refutes Stories of Loss

Regina.—In view of rumors alleged to have originated in Winnipeg, that the Saskatchewan Co-operative Elevator Company sustained a heavy loss in handling last year's crop, the following statement was authorized by the company:

The policy of the Saskatchewan Co-operative Elevator Company is to make its financial statement public at the annual meeting of shareholders which will be held December 16 in Regina. The statement of the company's operations for the financial year 1924-25 will be going forward to all shareholders within the course of a few days however. The fact that a dividend of eight per cent. for the financial year 1924-25 which ended July 31 last, was declared and paid in August last amounting in approximately \$130,000, is a very clear indication that the company's operations last year were on a very successful basis.

Ready To Reduce Armaments

Britain and Japan Willing to Join in Action

Washington.—While the Inter-Parliamentary Union resolved to sponsor movements for world disarmament and reduction of armaments, the British and Japanese groups declared their government were ready to join with others in a concerted action for further reduction of armaments.

The resolution on armaments reduction, reported by Dr. P. Munch, of Denmark, expressed regret that expenditures for armaments by "most countries" showed a "serious increase," pointed out the necessity of giving nations a feeling of security, and called for a thorough examination by a special sub-committee of methods for reducing armaments, including the drafting of a technical scheme to bring this about. It was adopted without dissent.

WILL STIMULATE CATTLE EXPORTS TO GREAT BRITAIN

Saskatoon.—To stimulate the export to Great Britain of Canadian cattle by providing transportation facilities designed to permit of the exportation of cattle in large lots, the federal department of agriculture has secured the verbal consent of the British board of trade and ministry of agriculture to the admission to Great Britain of cattle shipped in lots of 1,100 instead of the present shipment limit of 500. Hon. W. R. Motherwell, minister of agriculture, announced here this morning.

Mr. Motherwell was in receipt of a cable from W. A. Wilson, former dairy commissioner for Saskatchewan, and now Canada's agricultural products representative in Great Britain announcing the agreement.

The agreement has been completed following a conference held on September 21 between the British ministry of agriculture, and the Dominion department represented by Mr. Wilson and Dr. Barker. A few days later a second conference was held at which representatives of the marine department, shipping and cattle men were also present," said Mr. Motherwell.

Until the present ever since the British embargo was removed from Canadian cattle, the shipment limit has been 500 head of cattle. Since the embargo was removed the exportation of Canadian cattle has increased to the point where it has become necessary to provide transportation facilities better suitable to the volume of exportation.

The minister of agriculture also felt assured that with the provision of additional exportation facilities cattle exportation should receive a decided impetus. In opening negotiations for the objective now reached he had done so at the request of Canadian cattle exporters.

FREE TRADE IN EUROPE MIGHT MAINTAIN PEACE

Washington.—Pointed suggestions made by delegates to the Interparliamentary Union's conference that the Washington Government again take the leadership in promoting reduction of world armaments, were answered by Representative Theodore Burton, of Ohio, in an address before the closing session.

Referring to the desire often expressed by the president for a new limitation of armaments conference, Mr. Burton said various proposals looking toward the same ideal are being considered in various European conferences, and it would be an invitation for our president to ask for a conference in Washington while these efforts are being made.

He made it clear later, however, that he was speaking on his own authority and was not inspired from the White House to make the statement.

Debaters To Tour Canada

Quartet of Students From Britain Will Visit Dominion

Montreal.—The first purely imperial tour of universities' debaters will be inaugurated early in the new year, when a quartet of students representing four of the largest universities in the United Kingdom will visit Canada and traverse the country from coast to coast, holding debates with teams from practically all the Canadian universities.

The range of subjects to be debated is wide and of a decidedly imperial character. The Old Country debaters will uphold the resolution that "Western civilization is on the downward slide," while another subject in the program will be "Resolved: That a navy should be established at Singapore and that the dominions should establish naval squadrons in the Pacific."

The Britons will land at Saint John, N.B., early in the new year, and after making a tour of the universities of the Maritime provinces and of Quebec and Ontario, they will be at Winnipeg, Regina, Edmonton and possibly Calgary, finishing up at Victoria, B.C.

They probably will sail from Vancouver for the Antipodes, where they will engage in verbal encounter with representatives from the universities of Australia and New Zealand.

New Appointment

Permanent Legation Post For Canada At

Geneva Given Cpl. Obed Smith Winnipeg.—According to word received here, Col. J. Obed Smith, commissioner of immigration, London, has been appointed permanent commissioner of immigration to the Legation of Nations. It is understood that he will leave for Ottawa and Geneva shortly to assume his new duties.

Capt. Drake Missing

Seattle, Wn.—Captain Thomas Drake, who left Seattle alone in May for England in a small schooner, has not been heard from since he sailed from San Diego, August 15, according to J. W. Lough, of Seattle, an old friend of Drake's. Drake had planned to sail around Cape Horn.

Report On Ship Shortage

Moore Jaw.—There is a shortage of ships in the city at the present time, declared a local ship dealer here. The weather, which has greeted the progress of threshing operations, has also prevented the farmers from travelling over country roads to the city with their produce.

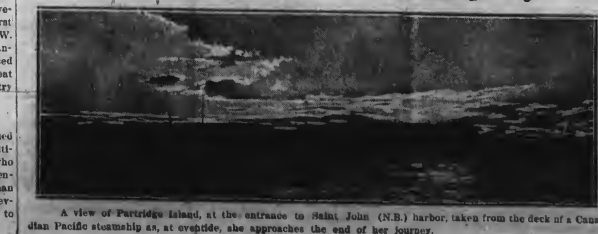

Dominions Not Committed

London.—The London Times publishes a Berlin dispatch quoting the Deutsche Zeitung as saying that the draft of the security pact, in which it declares that one article distinctly specifies that Britain only consults herself, and not the Dominions.

Heads Big Implication Company

Toronto.—The appointment of Joseph N. Shewton as president of the Massey Harris Company in succession to Hon. Wm. Massey, who resigned several days ago, was announced here.

H. C. McBURNEY

Druggist and Stationer Coleman, Alberta

Stewart and Milnes Address

(Continued from page 1)

coal was far more suitable for bunkering purposes than that mined on Vancouver Island. He proposed to leave no stone unturned to get a lower freight rate on coal going East.

In closing his address Mr. Stewart said that Canada was a difficult country to govern, each province had some local trouble and its people think differently, and it was necessary for the various parts of Canada to give and take for the sake of unity. We have great natural resources as yet barely scratched, and sane government will bring about greater prosperity than we have ever experienced.

Mr. A. M. Morrison before closing the meeting stated that he was glad Mr. Stewart had mentioned the government was going to reduce the tariff on automobiles, as he was in a position to know that the Ford Motor Co. of Canada took advantage of the present duty of 33 1/2 per cent, and even admitting that it cost this company 7 1/2 per cent more to manufacture their car in Canada than it did in the States, they were still receiving a straight 25 per cent. additional profit on every car sold by reason of the tariff.

The National Anthem brought the meeting to a close.

Later Mr. Stewart conferred with a number of miners with respect to the coal situation in The Pass
